

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING

Causes skin and eye irritation. Prolonged or repeated skin contact may cause allergic reaction in some individuals. Harmful if swallowed or inhaled. Do not breathe vapors or mist during brush, roll, and dip applications. Do not get in eyes, on skin, or on clothing.

Application of this product may produce a strong, lingering, unpleasant odor. Wear chemical resistant gloves, protective eyewear, long-sleeved shirt, long pants, socks and shoes when handling or applying this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)

- Applicators, mixers and other handlers must wear chemical resistant gloves, protective eyewear, long-sleeved shirt, long pants, socks and shoes when handling or applying this product.
- When applying this product to non-pressure treated wood with a brush roller, applicant must wear an organic respirator.
- Some materials that are chemical-resistant to this product are barrier laminate; butyl, nitrile, neoprene and natural rubbers $\geq$ 14 mils; polyethylene; polyvinyl chloride; and viton $\geq$ 14 mils. If you want more options, follow the instructions for category C on an EPA chemical-resistance category selection chart.

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Users must:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet;
- Remove clothing immediately if pesticide gets inside, then wash thoroughly and put on clean clothing.

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This product is toxic to aquatic invertebrates, shrimp and oysters/clams. For Terrestrial Uses: Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate. This product may contaminate water through runoff. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state water board or regional office of the EPA.

Physical or Chemical Hazards

Combustible: Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling Notice

Read and understand the entire label before using. Use only according to label directions. Before buying or using this product, read **Warning Disclaimer** statements found elsewhere on this label. If terms are unacceptable, return unopened package to seller for full refund or purchase price. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under **Warning Disclaimer**.

PRODUCT INFORMATION

Tenino Copper Naphthenate treated wood will be protected from infestation of destroying organisms including subterranean termites, drywood termites, wood destroying beetles, powderpost beetles, carpenter ants and decay fungi. It may also be used to protect and prevent warping, swelling, shrinking, and end checking caused by changes in moisture content of wood products, rot, mold, mildew and moss.

Solutions of Tenino Copper Naphthenate can be used for remedial or preventive treatment of standing wooden poles, piling and other existing structures wooden and cellulose utility and construction products (including lumber, end cuts, timber, rail ties, posts, poles, freeway fencing, siding, boats, piers, docks, boxes, roofs, shakes, cedar shake roofs, shingles, porches, steps, fences, rails and beverage cases). Tenino Copper Naphthenate treated wood is suitable for ornamental or planting landscape timbers, ties, wooden seedling trays, outdoor décor, flower boxes and window boxes. Tenino Copper Naphthenate meets the American Wood Protection Association (AWPA) Standard M4 end cut requirements for exterior and ground contact field treatments.

Tenino Copper Naphthenate

EPA Est. No. 54471-NB-001

Keep Out of Reach of Children

WARNING

First Aid

If in Eyes	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If on Skin Or Clothing	• Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes.
If Swallowed	• Immediately call a Poison Control Center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
If Inhaled	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-800-7620 for emergency medical treatment information.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

ACTIVE INGREDIENT:

Copper Naphthenate (CAS No. 1338-02-9).....17%*

OTHER INGREDIENTS.....83%

TOTAL.....100%

*Equivalent to 2% metallic copper
Contains Petroleum Distillates

DISTRIBUTED BY:

Copper Care Wood Preservatives, Inc.
41676 261 Avenue
Humphrey, NE 68642
888-817-0131
Net Contents: 5 gallons (1, 5 gallon pail)

DIRECTIONS FOR USE (Con't)

Wood treated with Tenino Copper Naphthenate must not be used where it may come in contact with food, feed or potable water. Tenino Copper Naphthenate treated wood is not suitable for garden applications where fruit and or vegetables will be grown. Wood treated with this product shall not be used in the construction of beehives. When field treating, do so in a manner that the product does not drip into sensitive environments. Whenever possible, apply field treatments prior to assembling the structure over the body of water or sensitive environment.

This product will tint the wood and may produce a strong, lingering odor. The color and odor will fade over time.

APPLICATION PROCEDURES:

For Exterior Use.

Tenino Copper Naphthenate is a ready-to-use formula. Agitate well before using. Make sure wood is bare, dry and free of dust, dirt and debris. Make certain all areas are fully treated to get the maximum benefits. Allow at least 1 hour between applications. Effective application rates vary according to severity of conditions to which the treated product is exposed and the wood species to be treated.

DIP, ROLLER OR BRUSH APPLICATION ABOVE GROUND CONTACT: Do not apply with any sprayer or by fine mist. Coverage is dependent upon application method and the refractory nature of the wood being treated. One gallon of diluted Tenino Copper Naphthenate will cover approximately 100—300 sq. ft. of surface area. In high hazard areas, two applications may be desirable.

GROUND CONTACT: Treat with Tenino Copper Naphthenate to a retention in the wood of 0.04 to 0.06 lbs copper metal/ ft³ (in accordance with AWPAs Standards). Two applications or extended soaking may be desirable to achieve adequate retention.

END CUT TREATMENTS: To satisfy AWPAs M4, apply Tenino Copper Naphthenate to cuts, holes or injuries.

STORAGE AND DISPOSAL

{For product packaged in rigid, non-refillable containers less than or equal to 5 gallons;}
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Handling:** Nonrefillable container; do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with solvent and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times, then offer for recycling, if available; or reconditioning, if appropriate; or puncture and dispose of in a sanitary landfill; or by incineration.

STORAGE AND DISPOSAL

{For product packaged in rigid, non-refillable containers greater than 5 gallons;}
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Handling:** Nonrefillable container; do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with solvent. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times, then offer for recycling, if available; or reconditioning, if appropriate; or puncture and dispose of in a sanitary landfill; or by incineration.

scription on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To the extent not prohibited by applicable law. Copper Care Wood Preservatives, Inc. **MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OR MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

Inherent Risks of Use.

The directions for use of this product are believed to be adequate and must be carefully followed. It is impossible to eliminate all risks associated with use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, the presence or other materials, climatic conditions or the manner of use/application, all of which are beyond the control of the Distributor. The buyer/user assumes all such risks.
